

# 14<sup>th</sup> Volume Index

January 2014 - October 2014

- 3-dimensional imaging, 251
- Aberrant carotid artery, 84
- Acoustic neurinoma, 56
- Age, 118
- Age-related hearing loss, 72
- Air bone gap, 156
- Alpha lipoic acid, 217, 222
- Anomaly, 48
- Antioxidant, 222
- Apoptosis, 25, 205
- Audiometric measurements, 72
- Audiometry, 124
- Auditory brainstem implants, 284
- Auditory brainstem responses (ABR), 25
- Auditory dys-synchrony, 270
- Auditory evoked potentials, 270
- Auditory N1-P2, 270
- Auditory neuropathy spectrum disorders, 270
- Auditory neuropathy, 270
- Auditory tests, 228
- Bell's palsy, 281
- Betahistine, 68, 240
- Blood supply of facial nerve, 184
- Bone conduction threshold, 156
- Bone conduction, 39
- Canaloplasty, 167
- Carcinoma, 190
- Carina, 80
- Cartilage, 64
- Case reports, 190
- Childhood, 124
- Children, 60, 284
- Cholesteatoma, 39, 291
- Chondroid syringoma, 181
- Chorda tympani, 87
- Chronic otitis media, 80, 264
- Cisplatin, 205, 217
- Cisplatin-based chemo-irradiation, 128
- Cochlear implant, 30, 246
- Cochlear implantation, 44, 118
- Complications, 60
- Computed tomography (CT), 48, 100, 251
- Conductive hearing loss, 91, 194
- Crura, 100
- CT density, 156
- CT temporal bone, 156
- Cytotoxicity, 19
- Deafness, 284
- Definite vestibular migraine, 150
- Dehiscence, 91
- Dimenhydrinate, 68
- Distortion product otoacoustic emissions, 150
- Dizziness, 144
- DPOAEs, 150
- Duration of deafness, 118
- Duration, 134
- Electrode misinsertion, 246
- Endoscopy, 107
- Epidermoid cyst, 187
- Etiology, 201
- Event-related potentials, 14, 270
- External auditory canal, 194
- Facial canal enlargement, 184
- Facial nerve, 275, 291
- Facial, 44
- Factors, 118
- Familial Mediterranean fever, 124
- Fibrous dysplasia, 194
- Foley catheter, 194
- Foreign body, 97
- Fracture, 100
- Fully implantable device, 80
- General attention, 14
- Geriatric, 72
- Graft survival, 64
- Hair cells of inner ear, 128
- Head-thrust test, 144
- Hearing aid, 97
- Hearing aids, 284
- Hearing impairment, 1, 5
- Hearing loss, 1, 5, 76, 80, 84, 124, 211, 234
- Hearing screen, 1, 5
- Hearing, 25, 39, 134, 264
- Helix, 181
- High-resolution computed tomography, 167
- Human middle ear epithelial cells, 19

## Subject Index

- Idiopathic sudden sensorineural hearing loss, 201
- Incision, 30
- Inflammation, 197
- Inflammatory myofibroblastic tumour, 94
- Inflammatory pseudotumour, 94
- Inner ear, 48
- Intratympanic, 217
- Irradiation, 128
- Labyrinthine fistula, 39
- Leptin, 201
- Linear protocol, 52
- Lymphocytes, 197
- Magnetic resonance imaging, 162
- Malondialdehyde (MDA), 33
- Mastoid, 187, 251, 291
- Mastoiditis, 60
- Mean platelet volume, 281
- Meningocele, 91
- Metalloproteinase, 33
- Methylprednisolone, 240
- Microcirculatory failure of the vasa nervosum, 281
- Microtia, 167
- Microvascular decompression, 107
- Middle ear surgery, 291
- Middle ear, 87, 97, 190
- Migraine without aura, 138
- Migraine, 150
- Mild cognitive impairment, 228
- Mixed tumors of skin, 181
- Molding, 97
- Monosyllabic word, 172
- Multi-planar reconstruction, 167
- Myringoplasty, 256, 260
- Myringosclerosis, 102, 222, 260
- Myringotomy, 222
- N100, 14
- N200, 14
- Nasal septal deviation, 251
- Nerve injury, 44
- Neurinoma, 87
- Neuroma, 87
- Neutrophils, 197
- Newborns, 52
- Noise, 211
- Non-linear protocol, 52
- Nonylphenol, 76
- Nystagmus, 68
- Otitis media, 19, 60, 256, 260
- Otoacoustic emission, 52, 76, 124, 217
- Otosclerosis, 156
- Ototoxicity, 76, 128, 205, 217
- Outcome, 118
- Oxidative stress, 128, 211
- P300, 14
- Papilloma, 190
- Paranasal sinus, 251
- Pathophysiology, 201
- Patient satisfaction, 30
- Pediatric population, 251
- Pentoxifylline, 240
- Peripheral nerve, 275
- Pilomatricoma, 181
- Pitch, 134
- Platelets, 197
- Pleomorphic adenoma, 181
- Pomegranate, 128
- Presbycusis, 72
- Protein oxidation, 128
- Psychoacoustic, 56
- Psychometric, 56
- Pure-tone, 134
- QuickScreen, 52
- Recombinant human erythropoietin, 205
- Resveratrol, 33
- Retrosigmoid approach, 107
- Rinne test, 1, 5
- Risk factor, 162
- Round window approach, 246
- S-100, 87
- Satisfaction, 264
- Schwanomma, 87
- Selective attention, 14
- Semicircular canal, 48
- Sensorineural hearing loss, 240, 284
- Sex hormone, 25
- Side effect, 113
- Skin scars, 30
- Speech audiometry in noise, 228
- Speech audiometry, 172
- Speech recognition test, 172
- Speech rehabilitation, 118
- Squamous cell, 190
- Stapes, 100
- Stenosis, 194
- Stent, 194
- Steroid, 113
- Steroids, 275
- Stony Brook Scar Evaluation Scale, 30
- Stroke, 162
- Subjective visual vertical, 138
- Sudden hearing loss, 197
- Sudden sensorineural hearing loss, 113
- Sudden, 234
- Superior semicircular canal, 246
- Tegmen tympani, 91
- Temporal bone, 94, 187, 194, 291
- Temporal MRI, 184
- Tension type headache, 138
- TEOAE, 52
- Three-dimensional reconstruction, 100
- Threshold, 134
- Tinnitus, 56, 84

Tomography, 44  
Translabyrinthine, 56  
Transtympanic treatment, 234  
Traumatic nerve paralysis, 275  
Treatment outcome, 240  
Trigeminal neuralgia, 107  
Tuning forks, 1, 5  
Tympanic membrane, 102, 256  
Tympanoplasty, 64, 102, 264  
Tympanosclerosis, 33  
Type 2 diabetes, 72  
Valproic acid, 211  
Venous engorgement, 184  
Vertigo, 68, 144, 150, 162  
Vestibular migraine, 138, 150  
Vestibule, 48  
Vestibulo-ocular reflex, 144  
Visual analog scale, 264  
Vitamin A, 275  
Word lists, 172  
X-ray computed tomography, 44  
Xylitol, 19
